

Summary of our SDP-2025-2026

The main points on our school development plan for this year are:

- To make Maths teaching and learning even better
- To become more independent in our learning
- To work more with families and the community
- To develop our Sensory Garden/Nurture Class
- To carry out a project to improve attendance using our Numeracy skills
- To carry out a project to improve healthy eating using our Numeracy skills

If you would like to discuss our progress in the above areas, please come along to our next Parents' Forum meeting on March 9th at 2:00 in the Junior School.
